DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/11/06 has been entered.

Drawings

The drawings were received on 4/11/06. These drawings are approved.

Allowable Subject Matter

Claims 1-3 and 46-52 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach a method of transferring an agent through the stratum corneum that includes, *inter alia*, striking said microprotrusion member with an impact force, whereby said microprotrusion member imparts an energy on impact with the stratum corneum in the range of approximately 0.05 - 3 joules per cm squared of said microprotrusion member in no greater than 10 milliseconds.

The prior art most similar is to WO 00/09184 in view of Kheiri (USPN 6,364,889). However, the examiner agrees with applicant's remarks regarding how this combination of references fails to teach the claimed invention. Specifically, that the combination of references

Art Unit: 3763

does not teach the claimed energy on impact range as stated above. Furthermore, applicant provides in their remarks that the application of an agent from the microprotrusion member with the claimed power density provides (i) an increased rate of delivery of the agent and (ii) a more uniform and consistent puncture depth across the microprotrusion array. Additionally, applicant states these benefits were not observed at lower power densities.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine S. Williams whose telephone number is 571-272-4970. The examiner can normally be reached on Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nicholas D. Lucchesi can be reached on 571-272-4977. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
